

TRANSFORM FITNESS COACHING

Trans Macro Calculator

System Overview

How we attract, capture, nurture, and convert
trans and queer leads into clients

THE CALCULATOR

WHAT IT IS

transmacros.com — the first macro calculator built specifically for trans, non-binary, and intersex bodies. Accounts for HRT stage, hormonal environment, gender identity, and fitness goals. Free, always.

HOW IT WORKS

6-step form collecting body stats, gender identity, HRT status, activity level, goals, and segmentation questions. Results include personalized macros, HRT adjustment explanation, calorie cycling, supplement recommendations, and a shareable results card with download and social sharing.

Step 1: Stats

Weight, height, age,
imperial/metric toggle

Step 2: Identity

Birth sex, intersex options,
gender identity, hormonal env

Step 3: HRT

On/off toggle, duration
in months, TDEE preview

Step 4: Goals

Activity level (1.2–1.9),
goal: cut/gain/recomp/maintain

Step 5: You

Challenge, GLP-1 awareness,
community interest

Step 6: Results

Email gate, first name,
phone (optional), unlock

LEAD CAPTURE

Email gate before results. Collects first name, email, and optional phone number. All data is sent to GoHighLevel via inbound webhook on form submission.

TAGS APPLIED

- macro-calculator (always)
- trans-man / trans-woman / non-binary (based on identity)
- on-hrt (if HRT toggle is on)
- fat-loss / muscle-gain / recomp / maintenance (based on goal)
- glp1-interested (if any GLP-1 interest expressed)
- scale-not-moving / dont-know-what-to-eat / no-structured-program / need-accountability / just-starting-out (challenge)

EMAIL NURTURE SEQUENCE

Automated email sequence triggered when a contact is created from the calculator webhook. Each email is personalized based on the contact's tags — gender identity, goal, HRT status, and challenge.

EMAIL 1 (Immediate)

Welcome + Macro Guide

Welcome email with personalized macro guide PDF attached. Confirms their results, explains how to use the guide, and sets expectations for the sequence.

EMAIL 2 (Day 2)

Gender-Specific Nutrition

Trans men receive testosterone and metabolism content — protein timing, muscle synthesis on T, calorie increases. Trans women receive estrogen and body composition content — fat redistribution, not under-eating, hormone-supportive nutrition. Non-binary contacts receive HRT-aware content tailored to partial or low-dose protocols.

EMAIL 3 (Day 5)

Goal-Specific Supplements

Supplement recommendation email matched to their goal tag. Fat loss: protein + recovery stack. Muscle gain: Surge creatine + protein. Recomp: creatine + recovery. Maintenance: general sports nutrition. All products from Mystical Transcendence with direct shop links.

EMAIL 4 (Day 9)

Recalculation Guide

When and how to update macros as body and HRT change. Covers the 7 triggers: weight change, HRT milestones, goal changes, activity changes, plateaus, surgery recovery, starting/stopping HRT. Links back to transmacros.com to recalculate.

EMAIL 5 (Day 14)

Challenge-Specific

Personalized email based on their biggest challenge tag. Scale not moving: plateau-breaking strategies. Don't know what to eat: simple meal rotation framework. No structured program: Essentials intro. Need accountability: coaching CTA. Just starting out: beginner orientation.

EMAIL 6 (Day 21)

Community Invite

Free Skool community invite — skool.com/transformfitnesscommunity. Positions the community as a space for trans people supporting each other without needing to explain pronouns or identity.

DOWNSTREAM OFFERS

Calculator leads are funneled into paid products through targeted email sequences, results page CTAs, and tag-based workflow triggers.

GLP-1 MEDICAL WEIGHT LOSS PROGRAM

Contacts tagged glp1-interested enter a separate nurture sequence. Day 1 email explains the program. Day 5 email covers the 90-day journey and results.

Landing page: glp1.transformfitness.net

Pricing: Semaglutide \$689/12 weeks | Tirzepatide \$999/12 weeks

Essentials membership included free with all GLP-1 programs.

ESSENTIALS MEMBERSHIP

Promoted in every email sequence. \$29/month recurring. Structured workout programs, meal planner, and progress tracking built for trans bodies.

Landing page: essentials.transformfitness.net

MYSTICAL TRANSCENDENCE SUPPLEMENTS

Dynamic supplement recommendations on the results page based on goal. Products: Surge creatine, protein line, recovery and hydration formulas.

Store: mysticaltranscendence.com

1:1 COACHING

Referenced as the premium option for personalized accountability. Three tiers based on level of support and access.

Momentum \$247/mo **All-In** \$397/mo **Elite** \$997/mo

Landing page: transformfitness.net

PROGRESS AND REVIEW SEQUENCE

Three-email check-in sequence starting Day 14 after the main nurture completes. Designed to re-engage contacts, prompt recalculation, and collect testimonials.

DAY 14 2-Week Check-In Survey

Short survey asking about progress, whether macros feel right, and if they've started tracking. Links to the GHG survey widget. Responses are stored on the contact record for coaching follow-up.

DAY 30 1-Month Check-In + Recalculation Prompt

Checks in on progress and prompts a macro recalculation if weight has changed by 10+ lbs or they've hit an HRT milestone. Links back to transmacros.com. Includes Essentials CTA for contacts not yet subscribed.

DAY 60 Testimonial and Story Request

Asks the contact to share their experience. Includes a link to a testimonial submission form with fields for their story, a before/after photo upload (optional), and a share permission checkbox.

TESTIMONIAL APPROVAL WORKFLOW

When a contact submits the 60-day survey and grants share permission:

- Contact is tagged testimonial-approved in GHG
- Internal notification is sent to Trey via email and in-app alert
- Testimonial text and photo are stored as custom fields on the contact record
- Approved testimonials can be added to the calculator landing page and marketing materials

FUTURE STATE

Automated testimonial display on transmacros.com — pulling approved testimonials from GHG via API and rendering them in the social proof section. Currently using a placeholder CTA: "Real results coming soon. Be one of the first to share yours."

TECH STACK AND KEY URLS

PROPERTY	URL	PLATFORM
Calculator	transmacros.com	GitHub Pages
GHL Account	app.transformfitness.net	GoHighLevel
Essentials	essentials.transformfitness.net	Trainerize-backed
GLP-1 Program	glp1.transformfitness.net	GHL Funnel
Coaching	transformfitness.net	Main site
Supplements	mysticaltranscendence.com	Shopify
Community	skool.com/transformfitnesscommunity	Skool

KEY TOOLS

GoHighLevel

CRM, workflows, email sequences, SMS, webhooks, surveys, funnels. Central hub for all lead management and automation.

GitHub Pages

Hosts transmacros.com. Calculator is a single index.html file with inline CSS and JS. Deployed via git push to main.

ReportLab + Pillow

Python libraries for PDF guide generation (macro guide) and OG image generation. Scripts stored in the repo.

Trainerize

Fitness app backend powering the Essentials membership. Handles workout programming, meal plans, and client metrics. Never referenced publicly — clients see it as "Essentials by Transform Fitness."

Shopify

Powers mysticaltranscendence.com for supplement sales. Integrated with calculator results page via direct product links.

Skool

Free community platform. Positioned as a safe space for trans fitness support. Promoted in email sequence and on results page conditionally.
